GAUGE:

16 sts + 22 rows = 4 in. (10 cm) in St st (k on RS, p on WS).

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

NOTES:

1. Body is worked back and forth in rows in one piece beg at neck. Piece is divided for leg openings and left back, underpiece, and right back are worked separately to end of leg openings. Pieces are then rejoined and worked to end of underpiece. Piece is again divided for lower underpiece and left and right back are worked separately.
2. Spikes and Hood are worked separately and sewn to Sweater.
3. Hood is worked in two halves, with short rows to shape each half. Short rows are rows that are worked over a portion of the sts in a row, leaving the remaining sts unworked. To work short rows, the pattern instructions will tell you to 'turn' before you reach the end of the row.
4. Spikes are sandwiched between the left and right back and secured in place when the center back seam is sewn.
